

Refreshing the Community Development Block Grant

Program Formula:

A Modern Allocation to Community Need—Appendix

Greg Miller

Cityscape 26 (3)

Appendix. Individual Grants—Formula Targeting

This appendix shows the individual grant amounts for the two alternative formulas presented in the 2024 report: *Refreshing the Community Development Block Grant Formula: A Modern Allocation to Community Need*. For each jurisdiction name, the appendix specifies the actual allocation in fiscal year 2022, allocations for the two alternative formulas—replacement and repair—using the fiscal year 2022 appropriation and grantee universe, and the percentage change for each alternative formula compared with the actual allocation.

More specifically, the table headers represent:

- Fiscal Year 2022 (\$): The amount allocated to the jurisdiction or grantee in fiscal year 2022 under the current formula.
- 1: Replace, Total (\$): The amount allocated to the grantee under the replacement formula if the proposed formula was fully implemented in fiscal year 2022.
- 2: Repair, Total (\$): The amount allocated to the grantee under the repair formula if the proposed formula was fully implemented in fiscal year 2022.
- 1: Replace, Total (%): The percentage difference in allocation to the grantee under the current allocation and the replacement formula if the proposed formula was fully implemented in fiscal year 2022.
- 2: Repair, Total (%): The percentage difference in allocation to the grantee under the current allocation and the repair formula if the proposed formula was fully implemented in fiscal year 2022.
